FIGURES IN SHERIFF'S RACE

The official count of the vote cast in the primary election of Saturday shows that in the race for the office of Sheriff between M. Peale Collier and R. Ed. Bedford, the former carried twenty out of the thirty-one precincts in the county, and his official majority is increased to 534. The vote by precincts was as follows:

For Collier—Paris, 1,241, Bedford, 826; Millersburg—Collier, 186, Bedford, 389; Flat Rock—Bedford, 175, Collier, 254; North Middletown—Bedford, 77, Collier, 450; Clintonville—Bedford, 135, Collier, 124; Hutchison—Bedford, 128, Collier, 110; Centerville—Bedford, 196, Collier, 173; Ruddles Mills—Bedford, 262, Collier, 184. Totals—for Bedford, 2,188, for Collier, 2,722; Collier's majority, 534.

Y. M. C. A. NOTES.

At the Y membership campaign meeting Wednesday night the score stood: Blues, 50 points; Reds 0. Immediately following the meeting the Blues turned in 120 points additional, making the total 170. It was reported, however, that the Reds had "something up their sleeves."

It was voted to extend the campaign in to next week and to add additional workers to both teams.

Both teams have rallies Friday at 7:30 p. m.

Lewis Meglone leads in the individual contest.

Plans are being made for opening the Gymnasium season at the Y at an early date.

Volley Ball will be started Wednesday, August 17.

Basket Ball and the regular Young Men's class will be started early in September. Plans are being made to have a City Basket Ball League.

The Boy's Gymnasium classes will open September 6.

There is much interest in the physical department activities and every sign indicates that the gymnasium and locker space at the Y will be crowded during the coming season.

The large lockers will be given to those joining during the campaign.

COAL DEALERS ISSUE WARNING.

A warning was issued Tuesday by coal dealers all over the State urging persons who can do so to lay in their coal supply at once. It is feared that there will be a shortage of fuel this winter, and it is practically assured that the price is cheaper now than it will be until next Spring.

HEAD OF PARIS SCHOOLS TO RETURN TO-MORROW

Prof. Lee Kirkpatrick, Superintendent of the Paris Public Schools, will return to-morrow, from Columbia University, New York, where he has been spending his summer vacation, studying and in taking special courses in educational advancement work. In a letter to THE NEWS Prof. Kirkpatrick says, in part:

"I have had an excellent summer in the University. As you will remember I received my M. A. here last year, and have finished much of my work toward my Ph. D. degree. I am looking forward to the best year in the Paris City Schools we have ever had. I appreciate very much the splendid co-operation I have always had from THE NEWS."

"Miss Lucille Harbold, the new teacher of Latin, is a graduate of Kentucky State University, and is in Columbia University now majoring in Latin, where she will soon get her M. A. in Latin. Miss Elizabeth Noland, the new teacher of English, is a graduate of Kentucky University, is also in Columbia University majoring in English, and will soon receive her M. A. in English. Prof. Dantzer, head of the Department of English of State University of 1912, and Prof. Jones, head of the department of Latin in the University of Kentucky, rate these two young women as among the best teachers the University has graduated in recent years. They have both made splendid records in Columbia, and by their excellent scholarship and personality will be a source of great strength to the Paris High School faculty."

"Announcement will be made next week of the new teacher of mathematics and French. These teachers will be chosen from a group of teachers who are college graduates, and who are now working in some of the large universities of America for their M. A. degree in their chosen field, and will be teachers of good experience. No teacher will be taken into the Paris High School faculty who has not done advanced graduate work in the work she is to teach. Miss Frances Butler, Miss Edith Stivers and Miss Rebecca Lochhart, teachers of scholarship and experience, will have charge of Science and History. We hope to make the Paris High School faculty one of the best in the State."

"I wish you would announce in THE NEWS that I want all students in Paris and Bourbon county who expect to enter the Freshman class in September to report at the High School on Monday, August 15, between 9:00 a. m. and 3:00 p. m., to register and classify."

"Sincerely,
"LEE KIRKPATRICK."

PARIS HEALTH BOARD AGAIN WARNS PUBLIC

Paris, Ky., Aug. 11, 1921.

TO THE PUBLIC:

Is your water for drinking and domestic purposes from hydrant, spring, cistern or well? It matters not, either may become contaminated and if so dire results might follow.

We have no typhoid or other serious intestinal troubles at present, and to avoid such conditions you are again urged to boil all water used for above purposes.

By order of the Board.
A. H. KELLER,
Health Officer.

DELEGATES TO AMERICAN LEGION MEETING.

At a meeting of Bourbon Post, American Legion, Nathan Bayless and Rev. T. S. Smylie were selected as delegates and Collier Dawes and Finnel Galloway, alternates, to represent the Post at the State meeting of the Legion, to be held in Lexington, on September 1 and 2.

The business session will be held on the first day, and the second day will be devoted to sports and social events at Woodland Park, the weather permitting. The delegates will wear the regulation O. D. shirts instead of blouses. Lexington is making preparations for giving the Legion members and delegates a rousing reception.

THE PRIMARY ELECTION AND ITS LESSON

Now that the election is over we will miss the glad handshake of the candidates who have been so solicitous concerning our health, our wives and babies, our crops, in fact they have assured us that if elected our every wish would be granted. They have all been so nice and courteous that the only regret we, the voters, have, is that we did not have an office for each of them. They were a fine bunch of fellows and it was hard for many to decide for whom their vote would be cast.

The primary is over. There were differences, of course, but a majority vote always settles the matter, and if we would be Democratic, we say so let it be. In some of the races just closed we received our choice for the nomination, but in others we did not, but we bow to the will of the majority, and will contend for the full ticket until after the November election. We are assuming, of course, that all the Democratic nominees will be elected in November, because they will receive the united strength of the party, which will insure success of both the city and county tickets.

But after the nominees have been inducted into office they must not be remiss to their duty, they must toe the mark, they must earn their salaries, or they will hear from the people in words not spoken in a whisper. The successful ones will find themselves face to face with the real problems incident to the duties of their office. They will find some of the things they had imagined they would do are beyond their power. We are assuming that when they have adapted themselves to their surroundings and their responsibilities, that things will be about as they used to be.

Our tabulated election returns give all of the results and how it was that each candidate, be he successful or not, will have a story to tell. We have nothing but facts and figures, and they cannot lie. The nominees head our columns, the party has spoken, and so have we. Now kiss and make up!

READY TO DRILL FOR OIL

Machinery for drilling purposes has arrived and been placed in position on the farm of Lee Stephenson near Clintonville. Three test wells will be sunk for oil under the auspices of a California syndicate, with like Cooper, formerly of Clintonville, supervising operations.

Mr. Cooper was informed by Geologist Willette, of Kansas, that in all probability, a flow of oil would be struck at seven hundred feet in the Trenton rock, the oil-bearing rock which extends through Ohio and the Kentucky oil fields. The drills will be kept going day and night until definite results are attained.

The company of California capitalists whom Mr. Cooper represents, have oil leases and mineral rights secured on 3,500 acres of land in the Hutchison and Clintonville precincts, which they propose to prospect for oil.

THE OFFICIAL VOTE

The Bourbon County Board of Election Commissioners, composed of Will G. McClintock, M. R. Jacoby and Denis Dundon, met at the court house in this city Tuesday, and made an official canvass of the vote cast in the Democratic primary election, held last Saturday.

The official canvass revealed but few material changes in the vote, the discrepancies noted being of small note. The corrected table as prepared from the official canvass of the votes is given on page four of this issue of THE NEWS, and will be a valuable reference for the future.

FORMER PARISIAN'S HOME FOR TRAINING SCHOOL

The building at 338 Harrison avenue, Lexington, probably will be purchased for the use of the guidance school at the University of Kentucky. Armin Binder, local supervisor of the Federal Board for Vocational Training, announced Wednesday. The building is the former home of Sherman Stivers, Paris correspondent for The Herald, who died several months ago.

Slight remodeling will be necessary before the building can be used for a school, it was said. It is a two-story brick with 11 rooms, and is only about 100 yards from the campus. The amount asked for the property was not made public.

A brick building on South Limestone street, directly opposite the Good Samaritan Hospital, is also under consideration, but it is likely the Stivers home will be decided upon, Mr. Bender said.

BUILDINGS AND IMPROVEMENTS

Ground was broken yesterday by the Standard Oil Company for the erection of a handsome brick and concrete gasoline service station at the corner of Main and Eighth. The building will be of modern design in every respect and will be rushed to completion as fast as possible.

Painters and decorators are busy in all parts of the town, putting the finishing touches on business houses and residences. Among the most noticeable are the J. T. Hinton Co.'s building at Sixth and Main and the White Front Garage, both shining in new fall coatings of paint.

A number of residences and small cottages are planned for erection and completion before the winter season begins. Carpenters and contractors are busy in both city and county, and there is a general air of industry and prosperity in all lines of business.

Reconstruction of High street and the intersecting side streets begun by the Henry Bickel Co., of Louisville, some time ago, is proceeding rapidly, with the expectation of being completed before the advent of bad weather. New curbing is being placed where needed on all side streets from Thirteenth to Second streets. The interurban tracks on High street have been taken up and will be replaced in the general reconstruction scheme, with heavier rails.

A CARD OF THANKS

On behalf of Mrs. Clark, as well as in my own behalf, I desire to thank all the good friends who helped us win the nomination for Tax Commissioner and Deputy in the campaign and primary election which closed Saturday. We are more than appreciative of everything that was done in our interest, and will endeavor to show by our conduct of the office that the confidence you have placed in us will be upheld. We are grateful to many for the use of their automobiles on the day of election, and grateful for every move made for our cause.

BASE BALL NOTES

Paris fans should turn out in large numbers to see the games between Paris and Winchester, tomorrow, and with the Cynthia team on the local grounds Sunday afternoon. These teams are all in excellent condition and are playing winning ball games. Paris hopes to take off both games, and should be encouraged by large crowds at each game.

The Winchester Sun says: "The Hustlers will journey to Paris, Saturday, for a game with the Paris team. Goodman, who formerly played left field for Paris in the old Blue Grass League, is now in charge of the Paris team. Several fans will accompany the local club on their trip."

In the game at the Second street ball park Wednesday afternoon between the Methodist and Presbyterian teams of the Church League, the former came out victors by a score of 11 to 3. The game was hotly contested at all points. The batteries were: Methodists—Martin and Owens; Presbyterians—Armstrong, Swearingen, Tadlock and Soper. The feature of the game was Martin's effective pitching for the Methodist team.

The sporting editor of The Cynthia Democrat thus sizes up the game last Sunday at Cynthia between Paris and Cynthia:

"It was a sad day for the vociferous delegation that accompanied the Paris would-be conquerors, when the said would-was were fed nine eggs, white side up, a la King, scrambled with Hammy and a generous garnishment of gang form. Two to nothing, said the scoreboard, and waved the round rings. Paris had a much stronger team than was expected, and the outfielders, especially center, were the top notch of amateur perfection. Caparoni is a steady twirler, and while his curlers were not so baffling, when hit they didn't get the batter anywhere."

ATTENTION, CANDIDATES!

All candidates in last Saturday's primary election are required to file a post-primary expense account within thirty days after the election. The law provides a penalty of \$500 for failure to file this statement, and everyone who was a candidate must do so, whether successful or not.

THE NEWS has a supply of blanks for the purpose, and will be prepared to fill them out for the candidates. Come in and get yours now!

THINK THIS OVER

Some people take an active interest in the affairs of their town. Some are passive, others are indifferent, and a few are negative.

The active ones are always on the alert to devise ways and means of improving local conditions. Their good work is to be seen on every hand. They make the town.

The passive ones are content to view the work of others without any particular desire to criticize and with no effort to assist in any way. They simply benefit from the labors of the active ones.

The indifferent element is not a particular asset to any community. So long as they get what they want the welfare of the rest of the population is of no concern to them. They extract much from others and give little in return.

The negative man is hardly as far down in the scale as the indifferent one. He keeps an eye on what is taking place, but his principal object is to criticize and obstruct. He does no particular harm because he is greatly in the minority, but he frequently does his town a disservice by uncovering defects in new projects which might otherwise slip through undetected.

Have you ever catalogued the men of this town? Do you know the class to which each one belongs? Do you realize your own status?

It is worth your while to devote a little time to the study of human nature. You will learn much of others, and sometimes more of your own characteristics. You might even find that your personal habits and customs would benefit by a change here and there.

None of us are perfect. We may never hope to be. But a calm and unbiased study of our minds and hearts might result in elevating us to a class above that which we now occupy.

In any event it would be a step in the direction of community betterment and personal advancement.

STOCKHOLDERS' MEETING

A meeting of the stockholders of the recently organized Bourbon County Fishing Club will be held in the court house to-morrow (Saturday) night, at eight o'clock. The meeting will be for the purpose of passing on the new site for the fishing lake, and to authorize the immediate beginning of work on building same. Come and see the plans and make your suggestions.

Since James B. Wilson, engineer, discovered from tests that the land donated by Louis Rogers for the purpose was not suitable the directors of the Club have been trying to locate some other site that would fill the requirements. This, it is believed, has been found on the farm of Mrs. Thompson Tarr, about one mile from the city limits of Paris on the Georgetown road, and Mrs. Tarr has donated the use of the land for that purpose.

W. S. Kelley, who is assisting Mr. Wilson, and acting in his absence, has made a blue print of this portion of land to be submitted to Mr. Wilson. This is now on exhibition in the window of the Peoples-Deposit Bank & Trust Co. It will be known to-morrow whether or not this land will answer all the requirements.

SELLS INTEREST IN BIG 4 MOTOR CO.

Hiram S. Redmon, for some time general manager and a large stockholder in the Big Four Motor Co., at Eighth and High streets, has disposed of his interest in the enterprise to Charles P. Mann. Mr. Redmon retains his interest in the Paris Realty Company, where he is associated with Mr. Mann.

Mr. Redmon, after his retirement from the Big Four, accepted a position which was tendered him as Deputy Tax Commissioner in the office of County Tax Commissioner Mrs. Walter Clark. His father, John J. Redmon, is Chief Deputy in the office. Both are men of large experience in real estate and land value matters, which insures Mrs. Clark a most competent office force.

EDITORIAL FLINGS OF THIS THAT 'EN TOTHER

Some men are born to be in time,
A feature that's a thriller,
While some are like this little rhyme,
Just born to be a filler.

Decreased automobile casualties in
July show that it sometimes gets so
hot that there is no pleasure in
running down pedestrians.

In 1924 if fashions change as
usual, women will be assailed for
vanity, which causes them to parade
in skirts dragging on the streets;
vanity which argues a lack of mod-
esty that is truly alarming. Can
any sensible person see any objec-
tion to the short skirt?

The approved way to catch the
motor speeding maniac nowadays is
to clothe officers in civilian attire
and place them out on the road in
all sorts of vehicles. The next time
you cut in ahead of a farmer in a
dilapidated car don't be too sure
that he is not a policeman with a
stop watch and an eye on your num-
ber plate.

Women's ears, we read, are to be
a part of the winter landscape. At
the same time a private domestic
forecaster, who never goes wrong, or
at least never acknowledges it, warns
us to prepare for a severe, cold win-
ter. That need not worry posses-
sors of the ears. Those delicate or-
ganisms will be kept warm enough
by the gossip that will come their

DIAMOND BRACELET FOUND; LAD UNTOUCHED HOURS

A \$1,500 diamond bracelet, with
36 small diamonds and one large
one set in platinum, lay at Fourth

corner, where thousands of per-
sons pass during a day—all after-
noon. Mrs. J. H. Limbird, wife of
the president of a large automobile
agency here, ceased worrying about
it, when the bracelet, which was in-
sured for \$1,400, was returned. A
woman, who refused to give her
name is \$100 richer for returning
the jewelry to its owner.

BANKS NOTIFIED TO LOOK FOR SWINDLER.

Paris merchants and financial in-
stitutions have been warned that an
elusive crook, who operates under
various names, is at liberty again,
and has entered the fields in which
his former activities made him
feared. During the past three years,
this man, who so far has evaded
the police, has swindled twenty-five
member banks of the American
Bankers' Association, and one non-
member bank out of more than \$43,-
000, according to the warnings sent
out by the Association.

This man moves to a new city,
and opens an account with from two
to eight banks, according to local-
ity, and then proceeds to "kite"
them, says the warning. When he
has gained the confidence of various
banks, and has a fairly substantial
sum deposited in one of them, he
secures from that institution a cer-
tified check for almost the total of
his deposit funds. He then draws
three or four checks for the same
amount, upon which he forges cer-
tified stamps. Armed with these
checks he visits other banks where
he has opened accounts, and thus
far has succeeded in getting them
cashed. He also works along mer-
cantile lines, and victimizes mer-
chants by liberal purchases, which
he pays for with checks, which are
afterward returned "N. G."

ANNUAL REUNION OF THE SHROPSHIRE FAMILY

The sixth annual reunion of the
descendants of James Harvey Shrop-
shire and Maria Louise Harcourt,
met last Sunday, August 7, at the
ancestral home near Leesburg, in
Bourbon county, which is now the
home of Walter Henderson Shrop-
shire. These reunions bring to-
gether annually relatives who are
scattered in many States. It has
been the custom for several years to
meet in the morning for worship at
the Leesburg Christian Church, of
which James Harvey Shropshire was
an elder for many years. On these
occasions the sermon has been
preached by Rev. Newton Shrop-
shire, of Clintonville. He was un-
able to be present this year, and the
special services were not held.

A substantial dinner was spread on
tables beneath the giant oak trees
in the yard. It is a remarkable fact
that no meeting during the entire
six years has been marred by rain.
After the dinner a business session
was held, presided over by the pre-
sident, Jas. H. Shropshire, of Harri-
son county. The historian, Mrs.
John L. Waits, of Harrison county,
presented some additional facts con-
cerning the early life of the ances-
tors. Mrs. Waits was requested to
have the historical data she had
gathered prepared for publication
and to have it printed in book form.
During the last year there were two
deaths, Mrs. J. Gano Shropshire, of
Georgetown, and Isaac Shropshire, of
Cynthiana.

The officers of the Association are:
President, James H. Shropshire,
Harrison county; secretary, Mrs.
Bullitt McCoun, Frankfort; treas-
urer, Mrs. Walter Henderson Shrop-
shire, of Bourbon county; historian,
Mrs. John L. Waits, of Harrison
county.

The following Bourbon county
descendants attended the reunion:
Mrs. William O. Shropshire, Paris,
representing the first generation;
Mr. and Mrs. Harvey L. Shropshire,
Mrs. Annabelle Wallace, Mrs. Wal-
ter Henderson Shropshire, Mr. and
Mrs. Charlie Wilmoth, representing
the second generation; Myra and
Mary Wilmoth, daughters of Mr. and
Mrs. Charlie Wilmoth, Paris, repre-
senting the third generation.

LOVE NOTE IN WRONG BOX CALLS OUT FIREMEN

Somebody who writes sweet-
scented missives on pink stationery,
addressed to a young woman, drop-
ped the letter into the fire alarm
box, mistaking it for a small box
and created quite an excitement at
fire department headquarters, in
Louisville. It happened that the
fire box was located in the heart
of the milling district of the city,
and a strong wind was blowing.
Firemen rushed to the scene but
found all quiet. Then they discov-
ered the box open, and a smile went
around when the pink letter was re-
moved. They "forwarded" it to its
destination via the mail route.

SIXTY TERRAPINS IN MERCER DRANK SPRING DRY

Harvey S. McBrayer, of the
Ninavah precinct observed that a
large spring on his farm in Mercer
county, had ceased running and sent
his son Maxwell to clean it out. After
short digging, young McBrayer
began to heave out live terrapins.
When he had finished there were
sixty terrapins and one turtle, all
full grown, in the heap. The spring
then resumed running, leaving
the question open whether the
terrappins had drunk it dry or wheth-
er they had so clogged it that the
stream was diverted.

RANKS OF G. A. R. FAST THINNING

Drop of 10,103 in Number of Vet-
erans of Civil War in the
Past Year.

4,445 POSTS IN 48 STATES

Ohio Has the Largest Quota, With
Pennsylvania Second and New
York Third—Organized in
Illinois in Spring of 1866.

Indianapolis.—When the Grand
Army of the Republic holds its annual
reunion this year more than 10,000
of the Civil war veterans who attended
the encampment of 1920 will be coun-
ted among the missing, as the ranks
have been depleted to this extent
through the last year.

The total membership of the G. A.
R. today is 93,155, while its mem-
bership in 1920 was 103,258.

The total membership is scattered
among 4,445 posts in every state; Ohio,
with 10,241, has the largest mem-
bership, with Pennsylvania second with
9,122; New York third, 8,795; Illinois
fourth, 6,868; Indiana fifth, 5,949;
Massachusetts sixth, 5,356. No other
state has 5,000 or more members.

Property owned by all posts is
valued at \$2,075,027, including real
estate worth \$802,841.

Members in the old Confederate
states total approximately 2,200.

The G. A. R. was organized in Illi-
nois in the spring of 1866. Who its
originators were is a matter of tradi-
tion, rather than of record, says the
report made to the national encamp-
ment in 1869 by N. P. Chipman, then
adjutant general of the national or-
ganization.

First Post in 1866.

"There can be no doubt that the
late Col. B. F. Stephenson of Decatur,
Ill., was one of the prime movers,"
says Chipman's report. "Being recog-
nized as such, he organized the first
post at Decatur, Ill."

By July, 1866, there were 40 posts
in Illinois, representatives of which
met in convention and organized the
state department. Stephenson was
by common consent the provisional
commander in chief, and posts were
organized in other states, resulting in
the first national encampment being
held at Indianapolis, November 20,
1866. After the Indianapolis conven-
tion Chipman records that "posts seem
to have sprung up as if by magic in
all parts of the North," but he adds
there was no record of progress. Ten
states were represented at the In-
dianapolis encampment, 21 states in
1867, 24 in 1868, 37 in 1869—having
2,050 posts.

At the 1869 encampment a mutual
life insurance scheme was proposed.
It being said that the G. A. R. had
240,000 members. In 1867 it had been
said that the state departments
"claimed to represent a constituency
of over 200,000." But there is no au-
thentic record of the number for the
early years, the insurance proposal,
containing an estimate, it is thought,
and the 1867 estimate being regarded
as the number of Union soldiers liv-
ing in the jurisdiction of the state de-
partments represented at the conven-
tion. For instance, the adjutant gen-
eral's report at the 1870 encampment,
when there were 39 departments, says
it is "absolutely impossible for me to
furnish anything like a correct report
of the present membership."

Decline Constant Since 1890.

In 1890, however, reports taken as
authentic state that the membership
was 409,489, the highest mark record-
ed. From 1878 to 1890 the growth
was rapid, being from 12,000 to 85,000
annually. Since 1890 the decline has
been constant except for a 3,000 gain
in 1906, said to be due to prospects
of favorable pension legislation. Sub-
sequent enrollment figures from the
time the G. A. R. reached its zenith
to the present time follow:

1891...407,781	1901...269,507	1911...203,410
1892...399,880	1902...263,510	1912...191,346
1893...397,223	1903...256,510	1913...180,227
1894...369,083	1904...247,340	1914...171,335

The 1920 national encampment
voted to meet every year as long as
a single member survived. Brig. Gen.
John L. Clem, address Army and Navy
Club, Washington, D. C., claims him-
self the youngest G. A. R. member.
He is thought by the G. A. R. officials
here to be seventy-one years old, hav-
ing enlisted as a drummer boy at the
age of eleven years. The question of
who is the oldest member always
brings up hundreds of claimants and
no reliable record has been obtained.

HALT FIREMEN AT BORDER

Italians Refuse to Allow Austrian Bri-
gade to Cross Line—Forced to
Watch Buildings Burn.

Vienna.—Frontier restrictions were
carried to an extreme when they pre-
vented an Austrian fire brigade from
crossing the Italian border to fight a
blaze.

Some buildings on the Italian side
of the Brenner Pass railway station
caught fire and the Austrian town's
firemen turned out. Italian gendarmes
demanded their visas and having none
they were forced to watch the ware-
houses burn.

Newport Woman Who Had To Live
On Milk Diet Is Now In
Splendid Health

"The splendid health I have had
for the past four years I attribute
to Tanlac and nothing else," said
Mrs. Jennie Williams, 141 Four-
teenth and Central avenue, New-
port, Ky.

"I had been suffering from stom-
ach trouble for at least four years
before I began taking Tanlac, and
I suffered so much after meals I just
dreaded to go to the table. Often
I went as long as two days at a
time without eating a morsel of
food. At last I was put on a milk
diet, but in spite of this and try-
ing all sorts of medicines I contin-
ued to grow worse and was spending
half of my time in bed—up one day,
and down the next.

"This was my condition when I
started taking Tanlac. Tanlac gave
me an appetite, put my stomach in
first-class condition and made me
gain twelve pounds. My nerves
quieted down and soon I was able
to sleep all night long without
waking once. Not only that, but it
gave me a feeling of strength and
buoyancy that I can hardly de-
scribe. As I said, that was four
years ago and from that time to
this I have felt fine. I think Tan-
lac is the grandest medicine man
ever made."

Tanlac is sold by leading drug-
gists everywhere. (adv)

JUNIOR LIVESTOCK JUDGING CONTEST

One of the important and inter-
esting events of State Fair week will
be the Boys' and Girls' Livestock
Judging Contest, for which prizes
totaling \$300 have been offered by
the Louisville Livestock Exchange.

This is to be an annual event.
The winner of the State Fair contest
each year will represent the State
in the Junior Judging contests which
will be held at the International
Livestock Exhibition.

So far thirty counties have indi-
cated that they will be represented
at Louisville, and others will be
heard from before the State Fair
opens.

In the preliminary contests the
boys and girls have shown not only
great interest but remarkable abil-
ity, and the educational value of
the enterprise has been widely rec-
ognized, and the work which is be-
ing done in this direction is bound
to prove highly beneficial to the
future of the farming interests of
the State.

The directors of the State Fair and
the men in control of the Louisville
Livestock Exchange are to be highly
commended for their efforts to pro-
mote interest among the boys and
girls in this great industry.

WINTER RELIEF

The squirrel and many other ani-
mals provide their winter supply
during the summer months. Man in
a sense acquires his disposition to
protect himself by storing up pro-
visions during the days of plenty.
And as the summer months pass by
the fall season approaches thought-
ful, philanthropic people who are en-
gaged in caring for those who are
less fortunate in many ways than
they are, are turning their atten-
tion to the impending relief work
that will be necessary in foreign
countries. Five million bushels of
grain have been asked for in con-
nection with the preliminary sur-
vey in the Near East. This seems
like a lot of grain, but with thou-
sands of empty mouths and stomachs
to be filled it will require an im-
mense amount of grain to go around.
Various agricultural organizations
in the country are at work endeav-
oring to secure co-operation in this
work. The actual collection of grain
will take place during September
and October of this year. Syria
and American farmers are not per-
mitted to stay in one locality long
enough to reap a harvest and so their
wants necessarily will be great.
The Near East already is beginning
to see the spectre of hunger rising
large on the horizon of the fall and
winter. It is none too soon to be
inaugurating the program for re-
lief. Happily it is in capable hands
and well under way.

LABOR DAY AT THE BLUE GRASS FAIR

Labor Day will be celebrated at
the Fair Grounds, Lexington, by all
local organizations in connection
with the Blue Grass Fair. Run-
ning, trotting and mule races; horse
show, cattle, poultry, etc., and a
special concert after noon and even-
ing by the Maysville Boys' Band
and the Orpheus Comedy Quartette.
One admission of 50 cents sets it
all.

Vaccination for Marriage.
In Sweden and Norway a legal mar-
riage at one time was not allowed
to be performed until both parties
had produced certificates stating that
they bore genuine vaccination marks.

IS HERMIT 33 YEARS

Man Visits City for First Time
and Sees First Woman.

Swift Change Comes and He Imme-
diately Sheds His Whiskers and
Buys Store Clothes.

Omaha.—Tracy Gillis, older than
Brigham Young when he took his
third wife, has just let his eyes first
see a woman. He also has had his
first remembered view of a railroad
train, a street car, a daily newspaper
and a fiction magazine.

Upon seeing a woman for the first
time, Gillis visited a barber shop and
had his long hair cut and his face
shaved.

Gillis is thirty-three years old. He
was born in Chicago. His mother was
an actress and his father a disciple
of Moody and Sankey. But for a third
of a century father and son, their
Bible open to the chapter which tells
of John the Baptist dwelling in the
wilderness, have lived alone on a west-
ern Nebraska ranch 40 miles from
railroad, with no stranger stopping
within its fence posts.

George Willis, the father, died re-
cently, two years short of the four-
score and ten which he believed that
had been promised to him. Tracy, the
son, buried the body on the ranch and
went on with his farm work. Today
he came to Omaha on his pioneer jour-
ney with a load of cattle.

According to the young man's tale,
the older Gillis trafficked, with his
neighboring farmers only on their
property and never on his own, for
fear his son's ears should pick up
hints of civilization. The father fled
to the West with his son to save him
from the dancing, singing actresses
in Chicago's old Haymarket theater.

"A devil lurks on every city street
corner, father taught me," Tracy Gillis
said today. "He told me the sad story
of my mother and warned me to avoid
all sinful men."

With the money from the sale of his
cattle Gillis changed his home made
garments for a suit of store clothes.
He also bought a safety razor, a tube
of tooth paste and two silk neckties.
He is willing to admit that one glimpse
of the city has demoralized him. In
his plans for the future, which in-
clude continued residence on his
secluded farm, he mentions a wife and
a course in agriculture.

MILLIONS SPENT IN VIENNA

Money So Plentiful in Austria Ameri-
cans Are Outbid for Objects
d'Art.

Vienna, Austria.—The astounding
amount of ready money circulating in
Austria was illustrated by the recently
concluded sale of the rare furnishings
of Klessheim palace, one of the resi-
dences of the Archduke Ludwig Vic-
tor. It netted many million crowns
and the newspapers say the purchasers
were virtually all newly rich Viennese.

Many professional collectors and
buyers from France, Great Britain
and the United States came here for
the sale but declared they could not
compete with native bidders, who ran
prices up into millions as nonchalant-
ly as if bidding in hundreds. Dollars,
pounds and francs, they said, were
out of the running. Several rare Gobe-
lins brought from 1,000,000 to 1,500,000
crowns each.

The Vienna Derby just run was an-
other illustration of the money plen-
titude. About 30,000 persons attended,
and the receipts of the betting machines
alone was 4,500,000 crowns.

BLAZING CROW FIRES FIELD

Bird Killed by a Live Wire Falls Into
Hay Causing Loss of Several
Hundred Dollars.

Rochester, N. Y.—A crow alighted on
a heavily charged electric wire of the
Niagara Power company and was in-
stantly killed, falling a blazing mass
into a field of uncut hay belonging to
Hobart Stahl, near Spencerport, eight
miles from here.

The field caught fire, causing a loss
of several hundred dollars, and for a
time threatened adjoining wheat fields
whose uncut crops are estimated to
be worth several thousands.

The Spencerport Chemical company
made the three-mile run to the Stahl
place and prevented further damage.

Meteor Falls in Tennessee.

Chattanooga, Tenn.—A meteor
weighing between 500 and 600 pounds
fell near here. The meteor made a
swishing noise that was heard several
blocks. It buried itself in the ground.

Aged Women Voters Posted; Riot Followed

It was only 90 in the shade
when the assessors of North
Brookfield, Mass., posted the list of
900 female voters in the
town, but it was estimated to
be 120 in the assessors' office
next day when it became known
each name was followed by the
age of the voter. Not satisfied
with storming the assessor's of-
fice, many of the women at-
tacked the lists with erasers,
and some of the lists were torn
off during the rioting. The list
was accepted as authority for
settling many long-standing ar-
guments as to age.

MISS MILLER TO SAIL FOR BURMA AS MISSIONARY

(Stanford Interior-Journal)
Miss Linda Miller will sail from New York, August 20, on the Albania, by way of England and the Mediterranean, to Burma, India, as a Northern Baptist Missionary. Miss Miller was educated at Kentucky College for Women, and Georgetown College, taught at the University of Tennessee, and is a graduate of the Teachers' College Columbia University. She was a Y. W. C. A. worker in France during the war. China was Miss Miller's choice as a mission field, but on application, she was asked to go to Burma, and agreed to do so. She will teach English in a mission school. Her first task will be to learn the language, one of the three thousand dialects spoken in India. Her school will not be assigned her until she reaches Rangoon, a modern Burmese seaport of 500,000 people.

Questioned as to her preparations for leaving, Miss Miller said that the details of her outfit and the tremendous amount of red tape incident to her departure made her feel as if she were going to housekeeping. Each missionary is allowed two tons of freight, which must be completely invoiced. Among the articles emphasized in the lengthy list sent for her assistance were bed, lamps, mirrors, keys and books. Among other things, her will must be made out, a copy taken with her, and a copy left at headquarters. White clothes are used largely in Burma, though not entirely. Clothing must be changed daily. When laundry time comes, the wash man takes the garments to the river and beats them out on the rocks. While many European articles may be purchased in Burma, very little American goods is available. The typical missionaries' house, made for two, is a cross between native and English architecture. Each side is occupied by one worker, with a common apartment in the center. The bathroom is a tin sprinkling arrangement, with a sloping floor off which the water drains. Venetian blinds are used instead of glass windows. The walls never reach the ceiling. Missionaries are given a short summer vacation in the hills during April and May, the disagreeable part of the year. After five year's work, they may have a year's leave of absence with full pay.

Miss Miller, through interviews with returned missionaries and with Burmese delegates to the Baptist convention at Des Moines, has learned much concerning the Burma people.

The Burmese, of whom there are 12,000,000, are a cross between the Chinese and Hindu races. They are a happy-go-lucky sort of people, fond of singing, dancing and drama. The women are not secluded as in other Asiatic countries. Rice and tobacco are the chief products. Women smoke as much as men. In a sense it is the U. S. of Asia—the get-rich-quick-country—on account of its great natural resources, rubies, gold, oriental goods, and tropical fruits. Insects swarm in everything, for the Burmese, since they are Brahmins, will destroy no animal life. Yet they do not hesitate to buy meat of butchers. Their plan of eating would suit many an American boy—at five a. m. they have "little breakfast," and at eleven "big breakfast." After a two-hours' siesta at noon, they have early tea, at five o'clock formal tea, dinner at eight, and supper at bed time. In the Burmese written language, there are no vowels and no space between the words; they write from right to left, thus making it very difficult for a foreigner to learn.

The Karens, or hill people, the first inhabitants of the country, are more open to Christianity than the others. A tradition was held among them that once their race had had the pure and undefiled religion; that by some mischance the Word was lost, and that some day a white man would come and bring it back to them. When Adoniram Judson, the first missionary to Burma, came in 1812, they received him as this long-looked-for man.

In Burma, as everywhere else, education and progress go hand in hand with Christianity. Ninety per cent. of the students in the schools are from Christian families. The schools are molded after American and English institutions. The sexes are educated separately until they reach college age. Judson College, at Rangoon, does as high class work as Oxford or Cambridge. All schools are required by the British government to take a certain examination; if they pass this, they are given government support.

Mission work in Burma is almost exclusively Baptist. Bengal Bay is known as Baptist Bay, for this denomination has circled the Bay. Beside churches and schools, it maintains orphan's homes, hospitals, leper colonies, and women's clinics. This year was the Women's Golden Jubilee of the Northern Baptist Church, and Miss Miller is one of the recruits. The church is to be congratulated on gaining the services of such a splendid young woman, and the prayers and good wishes of Stanford people will go with her in her noble work.

With sodas back to a dime, many people will cease worrying about the Fordney tariff bill and excess profits.

SOCIAL AND PERSONAL.

Comings and Goings of Our People Here, There and Elsewhere.

—Miss Rosina Elder is visiting friends and relatives in Richmond.
—James Higgins and Joe Lavin will leave this week for a sojourn at Hot Springs, Ark.

Give Them Help and Many Paris People Will Be Happier

"Throw Out the Life Line"—Weak kidneys need help. They're often overworked—they don't get the poison filtered out of the blood.

Will you help them? Doan's Kidney Pills have brought benefit to thousands of kidney sufferers. Ask your neighbor.

Paris testimony proves their worth.

Mrs. J. T. Mattox, 905 Pleasant street, Paris, says: "Both myself and husband have used Doan's Kidney Pills with very satisfactory results and so far as my own experience goes I can recommend them very highly. At times my back would have a weak and painful feeling through it and I would be quite dizzy by spells. My kidneys didn't act right either. I began using Doan's Kidney Pills and they soon relieved the trouble, restoring my strength and giving me better health generally."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mattox had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

OLD REGIMENT TO "REUNE" AT LEXINGTON

Answering the call of Roger D. Williams, of Lexington, Commander of the old First Kentucky Infantry Brigade, the officers and men of the old organization, which was split up at Camp Shelby during the war, will rally at Lexington during the State Convention of the Legion, September 1st and 2nd, in their first reunion. Henry J. Stites, of Louisville, (formerly Hopkinsville), has had the "paper work" thrust upon him, and is now busy lining the old gang, which will fight over again the battles of Ft. Thomas, El Paso, Shelby and France. Mr. Stites states that the three Regimental commanders, Wm. A. Colson, of Washington, (formerly of Louisville) Geo. T. Smith, Beattyville, and men, swapping old yarns of the barracks and camp fires. The reunion will bring together Kentuckyans from the Big Sandy Valley to the Purchase, many of whom have not seen each other since the old First was split up for over-seas service.

MOVE ORGAN OUT "TO PROMOTE HARMONY"

Public announcement is made by solitary remaining officer of the Bald Hill Church, in Nicholas county, that the organ which is blamed for the disruption of the congregation was moved from the building this week. He says that it was the "only thing to do in order for Bald Hill church to stand, and that was what was done." He continues: "We hope all whom the organ offended will return, and of course we take it for granted that all who did not oppose it can worship without it."

He says that the first duty of the congregation will be to see that the minister's back salary is paid.

What Is Every Mother's Hope For Her Children?

Sturdy, energetic children radiating health, are a source of pride and joy to their parents. And their development depends largely on their food.

Children, undernourished and unwisely fed are weak and unhealthy, and many times anemic. Disease easily grasps them, for their undeveloped constitutions are unable to resist the disease germs.

No food will have greater influence in making your children vigorous and healthy than Grape-Nuts. Served with milk or cream, Grape-Nuts is an ideal body, brain and nerve food. It is made from wheat and barley. Grape-Nuts offers a high food value, and it is as delicious as it is healthful.

Children find delight in the crisp, sweet richness of Grape-Nuts.

BOURBON WOMAN BUYS CYNTHIANA BUSINESS

The Cynthiana Log Cabin in a recent issue, has the following item of interest to many Bourbon county people:

"Mr. Homer Whitaker has sold his restaurant and soda fountain business on Pike street to Mrs. Mattie C. Howard, of Georgetown, who has taken possession and will be ready for business to-morrow morning. Mrs. Howard is a daughter of the late George Pugh, of this county, and is the widow of Victor Howard, who was born and reared at Ruddles Mills, and was engaged in business in Georgetown for fourteen years."

RELIGIOUS.

—Prof. Edward Ford, who is visiting his sisters, the Misses Ford, on High street, conducted prayer-meeting services at the Methodist church Wednesday night. Prof. Ford is a member of the faculty of a large school in Maryland. He is a former Parisian.

—Rev. W. E. Ellis, pastor of the Paris Christian church, has returned from Berry, in Harrison county, where he has been conducting a revival in the Christian church. The meeting closed with fifteen additions to the congregation, fourteen of which were by confession.

—Rev. O. J. Steger, pastor of the Brighton Baptist church, at Newport, has declined a call to the Baptist church, at Cynthiana, to succeed Rev. Dr. C. W. Elsey, who resigned to take up college work. Rev. Steger is at present conducting a revival in Newport.

—At the closing session of the Bracken Baptist Association, held last week in Carlisle, after an urgent invitation had been given by Locust Grove, Maysville and Millersburg churches to meet with them next year, it was decided to meet in Millersburg on the first Wednesday and Thursday in August, 1922. The meeting which closed the past week was said to have been the best for many years.

—A tent meeting is in progress on the city lot, near Limestone avenue, conducted by Evangelists Hummel, Wade and Gebhardt. Services are held each evening at 7:30 o'clock. Large crowds are attending these meetings. Last night Evangelist Gebhardt, who was for years a clown with the John Robinson Circus, told the story of his life and conversion, and preached a remarkably eloquent sermon.

—The Standard Training School, conducted under the auspices of the Kentucky Conference Sunday School Board of the Methodist church, is in session at the Kentucky Wesleyan College, in Winchester. The following from Paris are taking credit courses: Sadie Fuller, in Junior Methods; Mrs. C. H. Greer, Dennis V. Snapp, in Principles of Teaching; Rev. C. H. Greer, in The Methodist Church and Its Work; Misses Ruth Woodward, Maude Taylor and Elizabeth Greer, in Pupils' Work.

PRESBYTERIAN CHURCH

—All who may be interested in Disarmament are invited to attend the services of the Presbyterian church Sunday morning. The subject of the sermon by the pastor, Rev. T. S. Smylie, will be "Disarmament The Need of The Time." A special invitation is given to the members of the Commercial Club, those interested in the Community Service, and those who are interested in the church baseball teams, to attend the night service. The subject of the sermon will be "Catch Step." Such community activities as the above mentioned will be treated. All who are interested in these subjects will appreciate the thought and purpose of the sermon. Services at the regular hours. Preaching at 10:45 a. m. and 7:30 p. m., Sunday School at 9:30, Christian Endeavor at 6:45 p. m. Everybody welcome.

—Rev. T. S. Smylie has returned from his vacation and will resume regular services at Hopewell church on the second and fourth Sundays of the month. Preaching at Hopewell at 3 p. m. Sunday afternoon. The Christian Endeavor Society of the Presbyterian church will meet Sunday evening at 6:45. The subject will be: "True Temperance in Heart and Life." Leader, Henry Fisher.

GERMANY WETTER THAN EVER

According to official statistics issued by the Cologne Prohibitionists Congress, the drink traffic in Germany, which had decreased during the war, is again increasing considerably. Ten million bottles of champagne were sold in Germany last year, when ten thousand million marks were spent on alcoholic liquors.

Check Protection without a Machine

Given Without Cost to Our Depositors

TO combat the numerous frauds caused by "raising" checks, we have adopted the Protectu Check System. Each Protectu check has a series of numbers lithographed in indelible ink at the end of each check [like a money order]. By a cutting device provided with each check book, the end can be torn so that the highest amount indicated on the margin of the check represents the maximum amount of check.

This special size business check book, three checks to a page, is suitable for all business firms.

Protectu checks may also be had in two pocket sizes.

If you are considering opening a checking account, by all means come in and see this ADDITIONAL service that we are giving free to our patrons.

MRS. G. W. BRAMBLETTIE IS STRICKEN BY PARALYSIS

Mrs. George W. Bramblettie, aged fifty-nine, of Winchester, widow of George W. Bramblettie, who died three weeks ago at St. Joseph's Hospital, in Lexington, suffered a stroke of paralysis at her home near Winchester, Tuesday night. The stroke effected her entire left side, and for a time her speech was impaired. Yesterday, however, reports from her home on the Paris pike, were to the effect that she had partly recovered. Mrs. Bramblettie and husband formerly resided near Millersburg, and both were well-known to Paris and Bourbon county people.

PARIS COMMERCIAL CLUB

At a meeting of the Board of Directors of the Paris Commercial Club, held in the Club offices, plans were laid for a number of activities to be undertaken during the month of September. Among these will be a series of group meetings of the Commercial Club members, in which each member will be asked to express his views on what the organization should do for the development of the city. From these expressions a program of work will be made to guide the activities of the Club. Another matter discussed at the meeting was the holding of a joint meeting with the directors of the Bourbon County Farm Bureau to agree on methods of co-operation.

FACE FAMINE IN NEWFOUNDLAND

Doctor Grenfell, "Angel of Labrador," Issues Appeal for Relief of Fisherfolk.

DREAD APPROACH OF WINTER

Hunger and Companion Miseries of Poverty Are Acute Because the Fishermen Have Been Unable to Sell Product of Labor.

New York.—Dr. Wilfred T. Grenfell, "angel of Labrador," has joined forces with William Willard Howard, and the Christian Work of New York, in the campaign to relieve destitution in Newfoundland by providing a market for the codfish upon which thousands in that country depend for livelihood.

Hunger and companion miseries of poverty are acute in Newfoundland because the fishermen have been unable to sell the product of their labor. Dr. Grenfell came to New York a few days ago from Labrador whither he had gone after a conference here with Mr. Howard, director of the Newfoundland relief work, and Dr. Frederick Lynch, treasurer of the fund.

Fisherfolk on Verge of Famine.
Dr. Grenfell reported finding deplorable conditions among the families of the fishermen, and the industry of the country in a truly sad state. He says: "I have just received a message from Mr. Ed Grant of Blanc Sablon, Labrador, asking if I can help there, as 'great destitution prevails.' I am afraid that it will be very serious by winter. I sent him a couple of hundred dollars to fit out some few fishermen."

"At Twillingate only one-half of the normal number of fishermen are being fitted out. The savings are being drawn steadily from most of the banks, both in the outports and in St. Johns. I have that on the evidence of the bankers. We are starting the new hospital building at Twillingate. That is a help."

Doctor Grenfell is planning to tour through Newfoundland on his relief mission.

Mr. Howard, discussing the discouraging reports from Labrador, commented:

"Twillingate is the largest and most prosperous place in Newfoundland outside of St. Johns. If Twillingate can fit out only half her fishermen for the season's fishing, it is a black outlook for the rest of the island. Blanc Sablon is an important fishing port at the entrance to the straits of Belle Isle."

Foresees Severe Winter.

"If destitution prevails there now, I hesitate to think what Doctor Grenfell will find as he goes north."

"Much of the destitution could be relieved if one of my ships could leave for the Labrador coast now filled to the deck beams with flour, vegetables, molasses and fishery salt. A dollar of help now would be worth \$10 in next winter's inevitable famine."

"Soon the suffering people are hemmed in by ice."

The committee is now engaged in a program of relief which will aid the starving Newfoundlanders and at the same time provide food for families made homeless and suffering in this country on account of the Colorado flood. It is offering the fish for sale for \$10 for a 100-pound box, and purchasers who do not want fish for their own use may direct that it be sent to the Colorado refugees. Thus food will go to hungry Americans and the money which pays for it will go to the Newfoundland fishermen.

JUGOSLAVIA'S ARMY COSTLY

War Department is to Take Half of Total Government Budget for Next Year.

Belgrade, Yugoslavia.—The war department of the new kingdom of Yugoslavia will cost 2,000,000,000 dinars, one-half the government's total budget, in the next fiscal year, despite vigorous efforts by the minister of finance to reduce expenses. This is a reduction of 500,000,000 dinars from the estimates asked for by the war ministry.

The total budget estimates were 4,000,000,000 dinars but this has been reduced to 4,000,000,000. The nominal exchange value of a dinar is about 19 cents but at the present rate it is worth about three cents.

Find Fossilized Bones of Prehistoric Animal

The Pas, Man.—Discovery of what he believes to be the fossilized remains of a huge prehistoric animal in the Pasqual hills, near here, was reported by Dr. Ellis of the Dominion geological department. He said he found the bones disconnected, but in alignment, and that they measured 40 feet in length. He was unable to say what class of animal the remains belonged to. Eighty pounds of bones were brought here by Dr. Ellis for shipment to Ottawa.

Parrot Saved Friend From Going to Jail

When Mr. and Mrs. Paul Johnson of Chicago went away for a brief vacation, Mrs. Johnson asked Edward Peterson, her brother, to go to the flat and water and feed the canaries and parrot. Peterson lost the key and was climbing in the window when neighbors called the police. The desk sergeant laughed at his explanation, but the boy insisted that if the sergeant would accompany him to the flat he would prove he was all right. So they went back.

"Hello, Polly," said Peterson. Hello, Ed," replied the bird. "How's the boy? Whatcha got on yer hip?" The sergeant allowed Peterson his liberty.

HOPE TO COME BACK

Deported Radicals Are Fleeing From Soviet Rule.

Reported to Be Greatly Disappointed at What They Found in the "Promised Land."

Riga, Latvia.—Little groups of Russian-Americans, who were deported or volunteered to go from America to soviet Russia, are trickling back across the Latvian frontier from the land of the Bolsheviks very frequently these days. All hope to get back to the United States.

These emigrants, according to American consular officials, who hear their stories and have to tell them there is not much chance for them to get back, are greatly disappointed with what they found in the "promised land."

They tell of starvation and long rides in trains so packed with people that there is scarcely room to breathe.

Besides those who have succeeded in getting to Latvia, there are many others who have written friends in Riga asking for money from America.

The Moscow correspondent of the Riga Rundschau writes as follows about the Russian-Americans inside the country:

"The numbers of Russian communists expelled from America, who with wry faces are selling their last goods and chattels on the Moscow market places, are increasing every day."

"The soviet government is doing its utmost to keep these people above water by giving them even whole factories to run and manage. But as these factories are very much run down, even American spirit and energy is not sufficiently strong to set them in operation."

"A little better off are those of the immigrants who have managed to take with them from America their tools or goods produced by their trade. Such people are doing a big business and can afford to live well. Thus, one party of emigrants has succeeded in installing a small sewing factory containing about 300 sewing machines."

"Formerly the soviet government simply would have confiscated this lucrative enterprise, but at present the government is a little wary, the more so as in this case they have to do with immigrants whom they make a point of treating with the greatest possible courtesy and consideration."

"Quite recently there arrived a party of Americans whose specialty is the construction of small dwelling houses. They are welcomed and aided by the soviet government."

Marconi Succeeds in Sending Wireless Message Without Interference by Static Disturbances.

London.—Guglielmo Marconi, who has just returned to London, announces that for the last few weeks he has been testing a new method of wireless telegraph reception whereby he was enabled to receive messages from the United States continuously without interference by static disturbances.

Sig. Marconi regards this as an advance of the greatest importance, enabling wireless service to be conducted despite atmospheric disturbances for the entire period of 24 hours, at high speed most of the time.

Blunt but Well Meaning American Invites Royalty to Join Rotaries.

London.—The reputation which Americans have of blunt speaking even in the face of royalty is likely to be enhanced by a remark that passed between King George and Mr. Klumph of Cleveland, O., on the occasion of the Rotarians' reception at Buckingham palace the other day.

King George affably said to Mr. Klumph that he, too, would like to become a Rotarian.

"I don't see what is to stop you," said Mr. Klumph.

REPORT OF STATE COMMISSION

Governor Heartily Commends Recommendations Made After Months of Study

State Educational Commission sitting in the office of Mr. Alexander G. Barret, its Secretary.

The Preliminary Report of the Commission With Governor's Approval Across the Bottom Is Given Below

Hon. Edwin P. Morrow,
Governor of Kentucky,
Frankfort, Kentucky.

Sir:—

The Commission appointed by you pursuant to the act approved March 22, 1920 to make a survey of the public educational system of the State and to "report its findings with recommendations for improvement" to the Governor, has completed its field work and is now engaged in preparing its report which will be in your hands prior to the meeting of the next Legislature. We have already proceeded far enough to call your attention to one feature of our system, the improvement of which is fundamental to the future development of our schools.

The upbuilding of a sound system of public schools which will give our children educational opportunities worthy of the state and which will give country boys and girls as good educational opportunities as are enjoyed by city boys and girls depends at bottom on efficiency and continuity of administration. The cities are more or less independent. They choose their superintendents of schools on the basis of competence. The care and direction of the country schools is in the hands of the County Superintendents and the State Superintendent of Public Instruction. The County Superintendents are now for the first time chosen by the County Boards of Education, — a great step in advance. The State Superintendent alone remains a political officer. The interest of our schools demands that the office of the State Superintendent of Public Instruction shall cease to be a political office and that our schools cease to be administered

on political lines. The State Superintendent should be an educator whose qualifications and term should be fixed by the Legislature or by a Board of Education created by the Legislature.

At the general election, next November, there will be submitted to the voters of the State two constitutional amendments, one taking the office of the State Superintendent of Public Instruction out of the list of elected state officers, the other freeing a part of the public school funds to equalize educational opportunities and to encourage needed improvements. Unless these two amendments are adopted our hands are tied and educational progress in Kentucky is doomed to be exceedingly slow.

We recommend through you to the people of the State that the active help of every person and every organization, educational, agricultural, commercial and industrial, be given to the passing of these two constitutional amendments so decisively that the whole state will realize that we have started upon a program that will give both city and country boys and girls educational opportunities as good as those provided by any State in the Union.

Very respectfully,

KENTUCKY EDUCATIONAL COMMISSION

COLVIN SAYS SCHOOL BOOKS MUST BE READY

"There must be a sufficient number of distributing agents in every county in the State to meet the convenience of the schools in supplying school books," said Superintendent of Public Instruction George Colvin, in communications sent to county school superintendents inquiring if they have been unable to get any or all of the books ordered.

"There is no reason," he said "why a sufficient supply of books should not be secured in advance of the opening of schools. Kentucky has suffered enough from her inability to secure text books as the children need them. We ought to have done with excuses and demand the books themselves. In the event of failure to supply any books when ordered, I am anxious to know where the fault lies, whether it be the depository or the publisher."

PURE GASOLINE SPURTS FROM OLD TOWN PUMP

Citizens of the town of Bandanna, Ky., are wondering how comparatively pure gasoline got in the old town well. These citizens, deciding to put the old well to use again, after it had been in disuse for more than five years, started a work drawing off what they thought would be stagnant water. Instead, what tested pure gasoline was taken off. After thirty gallons had been drawn, water was secured.

Don't let this happen to you. If things don't come your way, get help. It's because you are not in the right place. — Boston Transcript.

AS BEECHER SAW BOOKS

"Books are the windows through which the soul looks out," said Henry Ward Beecher. "A house without books is like a room without windows. No man has a right to bring up his children without surrounding them with books, if he has means to buy them. It is a wrong to his family. He cheats them. Children learn to read by being in the presence of books. The love of knowledge comes with reading and grows upon it. And love of knowledge, in a young mind, is almost a warrant against the inferior excitement of passions and vices. A little library, growing larger every year, is an honorable part of a young man's history. It is a man's duty to have books. A library is not a luxury but one of the necessities of life."

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls
All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not now sick or drowsy. I have told many girls about your medicine and would be glad to help anyone who is troubled with similar ailments. You may use my testimonial as you like."—STELLA LINXWILER, 6 Second St., Evansville, Indiana.

Some girls lead lives of luxury, while others toil for their livelihood, but all are subject to the same physical laws and suffer in proportion to their violation. When such symptoms develop as irregularities, headaches, backaches, bearing-down sensations and "the blues," girls should profit by Miss Linxwiler's experience and give Lydia E. Pinkham's Vegetable Compound a trial.

High Sign of Art.
"See that picture on the outside of my paint box?" said Gertrude, the student artist. "Well, that's my introduction to any other student who's trying to become famous along the lines of Rosa Bonheur and happens to know about the idea. There's no special picture painted on the box, if you know what I mean, but just something that will let the fellow toilers in oils know the other is striving also to reach artistic heights. In this way many acquaintances are made and a helpful exchange of ideas results. We meet students who know of the idea almost everywhere."

Moth or Butterfly?
There are certain simple indications by which one can tell a moth from a butterfly. The antennae (feelers) of the butterfly usually terminate in a knot, while the antennae of a moth taper to a point. When a moth rests it keeps its wings in a horizontal position, while a butterfly places its wings together in a perpendicular position.

STATE HEALTH BOARD ISSUES ULTIMATUM

Druggists in Kentucky who sell patent medicines which have been advertised by itinerant medical companies from a wagon or other place in the street, where the companies state that they themselves do not sell the medicine advertised, but name the druggists from which it can be obtained, legally are liable to be regarded as members of the traveling troupes, and as such, are subject to prosecution. Elwood Hamilton, attorney for the State Board of Health, has informed the Board in an opinion prepared at the request of Dr. J. N. McCormick, director of the Bureau of Sanitation.

The opinion quotes the provision of the statute which declares that a druggist "becomes personally liable for the statutory penalty if he permits one who is not a registered pharmacist to vend medicines," and states that, for the purposes of prosecution, it would not be necessary to show that the articles were delivered to the offending druggist by the company if it could be shown that the articles were sold by the druggist, and that the druggist and the itinerant company had a mutual interest in the sale.

LOUISVILLE GIRL BATTLES IN CAGE WITH TIGERS

Mable Stark, Louisville, armed only with a whip, battled three tigers in a circus parade wagon at Aurora, Ill., and drove the beasts into one of the compartments and locked them there, while spectators fled from the wagon as it careened down the street, drawn by horses frightened by the snarling tigers. Several women spectators fainted. Two wild tigers had broken through when the jarring of the wagon had loosened the door separating their compartments from the one in which were a half-tamed tiger and the trainer, Miss Stark. Circus employes with steel rods finally quieted the animals, one of which was so badly injured it had to be shot.

Greek and Roman Churches.
The Greek church dissents from the doctrine that the Holy Ghost proceeds from the Father and Son, rejects the papal claim to supremacy, and administers the eucharist in both kinds to the laity; it agrees with the Roman church in the belief of seven sacraments, transubstantiation, the adoration of the host, confession, absolution, penance, prayers for the dead, etc. The Greek church formally separated from the Roman church in 1504.

Changing the Basis.
Two preachers, one white and the other colored, served rural charges in Mississippi which were coterminous. The negro received a considerably larger salary than his white brother, who asked him if it was not his custom to expel his members who failed to pay. "No, boss," he replied, "we would not like to put the gospel on a money basis. We get them to subscribe, and if they don't pay we turns them out for lying."—Memphis Commercial-Appeal.

SWIFT & CO.'S WEEKLY PRODUCE MARKET REVIEW

The butter market has shown some weakness during the latter part of this week, resulting in definitely lower prices at the close. This is due to a slight falling off in the demand and the fact that production is keeping up remarkably well, considering the season.

Poultry receipts are increasing, and prices are generally unchanged. As spring chickens reach the marketing age, the movement will undoubtedly increase, resulting in some decline in buying and selling.

Receipts of fresh eggs are about normal for this season of the year, with quality generally reported as improving and prices ruling a little higher than previous week.

Announcing The New Buick "Four"

—A Thoroughbred
Four, Completing
the Famed Buick
Line

The new Four-Cylinder Buick, here announced, is a thoroughbred—a pedigreed car well worthy of its name.

Down to the very last detail, this new model possesses every quality of enduring serviceability, complete comfort, and distinctive appearance that have always characterized Buick automobiles.

The advent of this new Four makes the Buick 1922 line complete. It offers to purchasers of a car of this size all the quality and service that go to make up the name "Buick."

The engine, of course, is of the time-tested Buick Valve-in-Head type. The year-after-year concentration of Buick's engineering skill and experience in building Valve-in-Head motors assures the highest standard of performance obtainable today.

Every other unit is of a quality equal to the power plant. The whole assembly constitutes a perfectly balanced chassis which is of typical Buick construction. The equipment of Cord Tires is merely evidence of the quality which characterizes the entire car.

Two open and two closed body types mounted on the Buick built chassis comprise the new series.

Even the most casual inspection of the details of design and workmanship will reveal that full measure of quality which motorists have learned to associate with Buick.

Obviously a high grade automobile—a genuine Buick production—the prices listed below make this great Four even greater. A value such as this is possible only because of the combination of Buick engineering skill devoted to the one ideal of quality, Buick production facilities developed over nearly a quarter of a century, and Buick's nation-wide distribution and service organization.

The Buick Motor Company is proud of the Buick Four. It has the faith of long experience in this newest addition to its line. It places upon it unreservedly the Buick guarantee carried by every Buick automobile produced. That its confidence is well placed is manifested not only by the keen interest with which motorists have awaited this announcement, but also the advance orders placed by distributors, dealers, and the general public.

COL. ASA MARTIN SEES HARD WINTER

Colonel Asa K. Martin, widely known weather prognosticator of Central Kentucky, for years a resident of Lexington, but who is now making his home with his daughter in Louisville, makes the prediction that the coming winter in Kentucky would be one of the severest since the cold winter of 1888-89.

He says in his prognostication that there will be twenty-one snows, the first falling on October 13, and the last on May 2, 1923. During the winter he says there will be seventeen zero days and three ice spells, when ice from three to twelve inches thick will be harvested. He also makes provision for three sleet storms. The first frost in this latitude he says is due to arrive on September 10.

Colonel Martin says the severe winter ahead will cause much suffering throughout the country, and he warns the public to "take time by the foretop" and prepare in advance for it. Colonel Martin has been a weather prognosticator for fifty years and those who have kept up with his predictions say that his forecasts have "hit the spot" oftener than they have missed.

DEATHS

MILLER.
—Mrs. W. M. Miller, of Millersburg, received a message Tuesday from Atlanta, Ga., telling of the death there of Mrs. Mollie Hall Miller. Mrs. Miller was the widow of John Miller, formerly of Millersburg, who died several years ago. The funeral and interment took place in Atlanta yesterday.

DICKEY.
—The body of John W. Dickey, Jr., formerly of Paris, who died some weeks ago in Santo Domingo, is expected to reach New York tomorrow, and will be brought to Cynthiana, his former home, either Monday or Tuesday for interment. Mrs. Callie Dickey and Mrs. George A. Kelly, of Detroit, Mich., are in Cynthiana awaiting the arrival of the body. Young Dickey had a large circle of warm friends in Paris, who admired him for his many qualities.

KING.
—Mrs. Mattie King, aged forty-nine, widow of William King, of near Paris, died at the Massie Memorial Hospital, in this city, at 11:30 o'clock yesterday morning, after an illness of long duration, due to a complication of diseases.

Mrs. King was a native of Fayette county, where she was born on May 8, 1872. She was a daughter of the late Mr. and Mrs. Jacob Sidener, pioneer residents of the Old Union vicinity. She is survived by one sister, Mrs. Ira C. Parks, of Paris, one brother, J. Porter Sidener, of Lexington, and a son, Earl King, of Paris.

The funeral will be held at 4:30 o'clock this (Friday) afternoon, with services conducted at the grave in the Paris Cemetery by Rev. W. E. Ellis, pastor of the Paris Christian church. The pall-bearers will be: J. W. Smith, Custis Talbott, S. S. Arbery, W. C. Sidener, W. W. Boone and Monroe Mansfield.

WHOLESALE ORGANIZE

Henry A. Power, president of the Power Grocery Co., of Paris, attended the meeting of wholesale grocers, held in Lexington, Wednesday afternoon at one o'clock, in the private dining room of the Lafayette Hotel. The meeting was preceded by a luncheon.

The meeting resulted in the organization of the Central Kentucky Wholesale Grocers' Association, with twenty-two members, representing the leading wholesale groceries of Central Kentucky. They were assisted in their organization by Harry J. Eastman, secretary of the Cincinnati Association of Wholesale Grocers.

HEAVY RAINS RELIEVE HEAT

Heavy rainfall, lasting for several hours yesterday afternoon, tended in a great measure to relieve the drought, which prevailed for a long time, and also brought relief from the intense heat. It brought hope to the farmers, who had despaired of getting even half crops of late corn and potatoes. The rain comes too late to save the early corn, but the late corn is looking much better in many sections. Tobacco is recovering rapidly from the long drought. Pastures, which had been burned to almost nothing under the scorching rays of the July sun, are green again, and streams are again running in the fields.

NEW CURWOOD NOVEL OUT SOON.

The publication date on James Oliver Curwood's new novel titled "The Flaming Forest" was advanced from August 24 to August 10, according to an announcement just made by his publisher.

This story, by the author, whose last two novels sold well over a hundred thousand copies each, is the third of his trilogy of tales of the Three-River Country, and wholesale book dealers have reported so many advanced orders for the book that its first edition of more than a hundred thousand copies—enough books to reach twelve miles, end to end—is already practically subscribed for. The previous two stories of Curwood's trilogy were "The River's End" and "The Valley of Silent Men," and each was listed as one of the best sellers for nearly a year. They were stories tense with adventure, mystery, romance and the glamour of the North Woods, a region, incidentally, of which Curwood has a great deal of first-hand knowledge, having spent much of his time on extended hunting trips in British Columbia and among the natives of the Canadian Northwest.

EVANS—McMILLAN.
—The marriage of Judge Charles A. McMILLAN, of Paris, and Miss Katharine Evans, of East Moriches, New York, formerly of Paris, took place Wednesday night at seven o'clock, at the home of the bride's mother, Mrs. Thomas Evans, in East Moriches. After a wedding tour to points of interest in the East, Judge and Mrs. McMILLAN will be at home to their friends on Mt. Airy avenue, in this city, after October first.

A large number of congratulatory messages from friends in this city and county were sent to the happy couple, timed to arrive just before departure on their wedding tour.

SLICER—VAN SLYKE

—Sly Dan Cupid scored a hit Monday afternoon, when he witnessed the consummation of a courtship in which a handsome Paris girl and a New York business man were united in marriage. The happy event took place at four o'clock, at the home of Mr. and Mrs. A. L. Slicer, on South Main street, when their daughter, Miss Gertrude Slicer, became the bride of Mr. William M. Van Slyke, of Gouverneur, New York.

The ceremony was performed in the parlors of the beautiful home of the bride's parents, by Rev. W. E. Ellis, pastor of the Paris Christian church. The ceremony was witnessed by members of the family and a few intimate friends. The attendants at the wedding were Mr. and Mrs. Merriett Slicer, the former a brother of the bride. The bride, a very handsome and popular young woman, was lovely in a wedding gown of white satin, and carried a corsage bouquet of pink bride's roses.

After receiving congratulations and best wishes of the assembled guests, Mr. and Mrs. Van Slyke left for Cincinnati, and from there for an extended tour of the Great Lakes region. On their return they will make their home in Gouverneur, N. Y., where the groom is engaged in the drug business as a member of the firm of Van Slyke & Curtis.

Mrs. Van Slyke is a graduate of the Paris High School, the University of Kentucky, and for some time has been Physical Instructor in the schools of Gouverneur, New York, where she met her future husband. Mr. Van Slyke is a son of Mrs. Barbara Van Slyke, of Plainfield, East Moriches, New York, a graduate of the Gouverneur High School and of Albany, N. Y., School of Pharmacy.

BIRTHS.

—In Lexington, to the wife of Alvin W. Arkle, formerly of Paris, a nine-pound son, christened Thos. Dudley Arkle, in honor of both grandparents. The mother was formerly Miss Whitney Drake, of Lexington.

—Mr. and Mrs. Richard T. Anderson, of Lexington, are welcoming a son, who was born Monday night at St. Joseph's Hospital. He was named Richard Anderson, Jr., in honor of his father. Mrs. Anderson was before her marriage Miss Hazel Cottingham, daughter of Mr. and Mrs. A. W. Cottingham, of Paris, and sister of Wayne Cottingham, of the Lexington Leader.

Good Advice.

Germes, says the United States public health service, are usually a hand to mouth affair. Better wash up.

Ashes Clean Glasses.

For cleaning glasses which have contained milk there is nothing equal to wood ashes.
